MARKET OF THE MONTH UNITED ARAB EMIRATES

Oil and gas production has been a mainstay of the UAE economy. In addition, the non-oil sector of the economy is growing. Also in demand are sophisticated security and safety equipment; health related technology, equipment or supplies; architecture, construction, and engineering services; building products; air conditioning and refrigeration; environmental and pollution control equipment; telecommunications equipment; sporting goods and recreation equipment and computers. Water and power projects continue to offer considerable opportunity. The largest civilian export sale won by U.S. firms during 2002-2003 involved aircraft engines and aircraft. For more information on the UAE please visit the CS MARKET OF THE MONTH web site at www.export.gov/commercialservice.

BUSINESS OPPORTUNITIES IN IRAQ AVAILABLE ONLINE

The Coalition Provisional Authority (CPA) that is currently governing Iraq is now issuing contracts and tenders directly from Iraq. All solicitations are available on the CPA website at www.cpa-iraq.org/business/index.html. For a complete overview of information on Iraq Reconstruction, please visit our website at www.export.gov/iraq.
